About Me

The love for creating has always been a part of me. When I discovered that programming allows ideas to become reality, I realized it could be more than just a tool. It became my path — where logic meets creativity.

Experience

(From 2023)
WEB DEVELOPER
BeeOnCode

- I began my programming journey at BeeOnCode. Thanks to my dedication and strong performance during the courses, I was offered a position. A year later, I officially joined the team, gaining hands-on experience and continuing to grow professionally in a collaborative environment.

(From 2021)
SELF-EDUCATION

- Since 2021, I've been actively pursuing self-education through online courses and independent study. This commitment to continuous learning has become an essential part of my personal and professional growth — helping me improve every single day.
